OLYMPIC®

WE MAKE **STAINING EASY**

EXTERIOR WOODCARE GUIDE

1 CHOOSE YOUR **TRANSPARENCY**

GOOD — DURABILITY — BEST

CLEAR	TRANSPARENT	SEMI-TRANSPARENT	SOLID COLOR
A clear finish allows your wood to weather and gray naturally.	Slight hint of color that highlights the wood grain.	Rich color that allows wood grain and texture to show.	Fully opaque color covers the wood grain and accentuates the texture.
Recommended for new, fresh wood, up to 3 years old.	*Recommended for younger wood, up to 4 years old.*	*Recommended for somewhat mature wood, up to 6 years old.*	*Recommended for aging wood, up to 10 years old.*

2 CHOOSE YOUR **COLOR**

Color samples simulate stain colors on cedar.
The colors shown above are produced using a printing process which approximates the actual stain color. Colors vary with wood species, color, grain, texture and wood porosity.
Surface color and texture can affect the final finish color and the number of coats required to achieve the desired color. Therefore, a trial area is suggested before proceeding with the entire job.

America's Most Trusted Brand Since 1938

OLYMPIC®

Deck: Steely Sea | **SOLID**

APPLICATION STEPS FOR SUCCESS

Please refer to the Product Label, Technical Data Sheet (TDS) or Safety Data Sheet (SDS) for safety and detailed application instructions.

1. Clean and prep wood surfaces

with OLYMPIC® Deck Cleaner.

2. Using a high-quality brush, roller, stain pad or spray equipment:

APPLY ONE COAT for clears, toners and semi-transparent stains.

APPLY TWO COATS for solid color stains.

To help avoid lap marks, apply only a few boards at a time, keeping a wet edge.

Back brush for an even finish and proper penetration.

3. Ensure deck is dry and enjoy

Follow directions on label for drying time before putting any furniture back on your deck.

Deck: Mountain Cedar | **TRANSPARENT**
Railing: Ebony | **SEMI-TRANSPARENT**
Siding: Powder Mill | **SOLID**

COVER: Deck: Mahogany | TRANSPARENT
